

# CAUTION

**Canisters with fumigants used to kill pests in cargo holds of ships have washed up on several beaches along the Washington State shoreline between Ocean Shores and Ozette, Washington.**

**Do not handle or open these canisters.**

**They contain toxic chemicals and may pose a health threat to people.**

**Beachgoers that find canisters should contact the Washington State Department of Ecology Environmental Hotline in Olympia, Washington at 360-407-6300 or Olympic National Park at 360-565-3000.**
